

How are we doing? An overview

Key performance report: June 2019 (using predominantly April/May data)

	A&E (95%) May data	RTT (92%) April data	Diagnostics 6 weeks April data	2ww (93%) April data	2ww breast (93%) April data	31 day (96%) April data	62 day (85%) April data	EIP (50%) April data	IAPT Access 4.75% Q4) March data	IAPT Recovery (50%) March data
South Yorkshire and Bassetlaw	90.9	91.7	2.2	93.2	84.5	95.3	81.9	74.7	5.10	54.6
Greater Manchester										
Bucks, Oxfordshire and Berkshire West										
Frimley Health										
Dorset										
Nottinghamshire										
Blackpool & Fyde - Lancashire and S.Cumbria										
Milton Keynes, Bedfordshire & Luton										
Gloucestershire										

There are small variances at month 2 in year to date positions compared to plan but, as is to be expected at this stage in the year, all organisations are forecasting achievement of plans. There is a potential risk to system PSF of £5.7m dependent on outcome of further discussions.
