<b>Summary of key issues</b>		
This monthly paper from the System Lead of the South Yorkshire and Bassetlaw Integrated Care		

System (SYB ICS) provides a summary update on the work of the SYB ICS for the month of January 2021.

**Recommendations**

The SYB ICS Health Executive Group (HEG) partners are asked to note the update and Chief Executives and Accountable Officers are asked to share the paper with their individual Boards, Governing Bodies and Committees.

## **Chief Executive Report**

### **SOUTH YORKSHIRE AND BASSETLAW INTEGRATED CARE SYSTEM**

#### **Health Executive Group**

**9<sup>th</sup> February 2021**

#### **1. Purpose**

This paper from the South Yorkshire and Bassetlaw Integrated Care System System Lead provides an update on the work of the South Yorkshire and Bassetlaw Integrated Care System for the month of January 2021.

#### **2. Summary update for activity during January**

##### **2.1 Coronavirus (COVID-19): The South Yorkshire and Bassetlaw position**

As at the end of January, the latest figures show that for South Yorkshire and Bassetlaw over 170k people in the highest priority groups had now been vaccinated. Just over 60k of those are 80 years old or over which is around 80% of the total number of people in this category we need to. The remainder of the 170k are either people 75 years and above, people who are classed as clinically extremely vulnerable and patient facing NHS and social care staff. The numbers are, of course, changing all the time. The latest statistics for South Yorkshire and Bassetlaw are published weekly here: <https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/>

All local primary care centres continue to vaccinate as planned and additional vaccination capacity has opened at Sheffield Arena. The Arena team is vaccinating 7 days a week, 12 hours a day and the first week of operation saw all available appointment slots taken up. The majority of care home residents across the region have now been vaccinated and vaccinations for patients registered as housebound with their GP practice have also commenced. Patient facing NHS and Social Care staff across the region also continue to be vaccinated.

Partners in each of our places, including NHS, Local Authority and Community, Voluntary and Faith groups are working together to ensure vaccination myths are dispelled and community leaders are helping to support positive messaging around the vaccination campaign, particularly in our communities that have been identified as most vaccine hesitant or who are seldom heard. Partners are also sharing Covid-19 vaccine facts resources to help combat a rise in the incidence of vaccine fraud.

All five places in South Yorkshire and Bassetlaw have been chosen to receive £1.4 million national funding for the Community Champions scheme, which awards councils and voluntary organisations funding to deliver a wide range of measures to protect those most at risk - building trust, communicating accurate health information and ultimately helping to save lives. This will include developing new networks of trusted local champions where they don't already exist and will also support areas to tackle misinformation and encourage vaccination take-up.

In terms of COVID-19 cases, the trend is a slowly downward. The lockdown is starting to have an effect, albeit slowly, with progress slow because the rates were high before the lockdown and the newer (more contagious) Covid-variants that have since been identified. Across the five places in SYB, rates are all falling with fewer outbreaks reported, and death rates continue to decline. Cases

of COVID-19 in the over 80s are also declining which, it is hoped, is an early sign that the vaccination programme is having an impact.

## **2.2 Regional update**

The North East and Humber Regional ICS Leaders have been meeting weekly with the NHS England and Improvement Regional Director to discuss the ongoing COVID-19 incident, planning that is taking place to manage the pandemic and where support should be focused. Discussions during January focused on Wave 3 surge plans, the COVID-19 response and vaccination programme.

In addition to operational issues, ICS Leaders have been involved in discussions about the development of integrating care across four workstreams. These workstreams mirror the development work that is taking place in SYB: Place-based partnerships; provider collaboratives; how the nature of commissioning will change; and the integrated care system.

## **2.3 National update**

NHS England and NHS Improvement (NHS E/I) issued their Phase Four letter on 23 December in which the operational priorities for winter and 2021/22 were set out. Key elements from the Letter include managing the ongoing demand from COVID-19, rapid implementation of the COVID-19 vaccination programme, maximising capacity to provide treatment to non-COVID-19 patients, preparedness to respond to the seasonal winter pressures and supporting the wellbeing of our workforce.

It also set out clear ambitions around how systems should address pandemic-related population health concerns as a direct result of COVID-19 in the areas of reducing health inequalities, expanding mental health provision and prioritising investment in primary and community care services.

There is also a clear framework for how systems should follow the new financial framework around funding (consistent with the NHS' Long Term Plan). A helpful summary by the NHS Confederation can be read [here](#).

As part of national efforts to support all regions with the ongoing challenges of COVID-19, Amanda Pritchard, Chief Operating Officer for NHS England and NHS Improvement (NHS E/I) sent a further letter to NHS leaders on Tuesday 26<sup>th</sup> January.

The letter titled 'Reducing burden and releasing capacity to manage the COVID-19 pandemic' explains that systems should ensure they make pragmatic decisions about how best to free up management capacity and resources to focus on additional competing priorities around the vaccination programme and continued non-Covid care.

The letter encourages NHS trusts and foundation trusts to consider options including the pausing of all non-essential oversight meetings, streamlining assurance and reporting requirements and only maintaining those existing development workstreams that support recovery.

## **2.4 Safe Maternity Services during the COVID-19 Pandemic**

The South Yorkshire and Bassetlaw Local Maternity and Neonatal System (LMNS) has published its 'Safe Maternity Services during the COVID-19 Pandemic' strategy. The document offers best practice guidelines to midwives and midwifery teams to ensure the care for women (and families) during the pandemic remains as unaffected as possible.

The LMNS has been ensuring service users are engaged with during these unprecedented service adaptations. By providing the most up to date evidence based information, the LMNS is working with partners to enable women to make choices that are personalised to their individual needs, wishes

and requirements.

The full document is published here:

## **2.5 Sheffield City Region**

The Sheffield City Region Mayoral Combined Authority and Local Enterprise Partnership approved their 20-year Strategic Economic Plan (SEP) on 28<sup>th</sup> January. The Plan sets out local leaders' blueprint to drive the region's recovery from COVID-19 and transform South Yorkshire's economy and society for people, businesses and places.

The SEP paves the way to a stronger, greener and fairer economy as the region looks to unlock its potential and create prosperity and opportunity for all. The ambition of the 20-year Strategic Economic Plan is for the South Yorkshire economy to look very different in 2041, with an extra £7.6bn Gross Value Added (GVA), 33,000 extra people in higher level jobs, reduced income inequality and improved wages by over £1,500 for the lowest paid, and a net zero carbon economy.

## **2.6 Mental Health White Paper**

The government has published the Reforming the Mental Health Act White Paper, which sets out proposed changes to the Mental Health Act 1983. The paper also sets out proposals and ongoing work to reform policy and practice to support the implementation of a new Mental Health Act. The proposals take forward the majority of the recommendations made by the Independent Review of the Mental Health Act 1983.

The government is seeking views, until 21 April 2021, on the implementation and impact of the reforms. Feedback will inform the drafting of the Bill to amend the Act, which will be brought forward when parliamentary time allows.

## **2.7 SYB Recovery Plan**

The pandemic has caused an unprecedented rise in waiting times for hospital and diagnostic care, interrupted ongoing care in the community for mental health and other long-term conditions and assessments for social care support. The impact has been devastating on our population, particularly on health inequalities which continue to widen. Our plan has always been to address inequities in access and outcomes through a collective partnership approach and we must now accelerate our efforts.

Before the Pandemic, South Yorkshire and Bassetlaw (SYB) had one of the lowest number of people nationally waiting over 52 weeks and today the region continues to hold a comparatively smaller over 52-week waiting list. Nonetheless, we are keen to address any delays and reduce the impact on our population.

The innovation and resourcefulness that helped to enable SYB's health and care system to continue delivering safe patient care during the pandemic will also be integral to our future plans. Our close partnership with the Yorkshire & Humber Academic Health Science Network will see the continuation of our co-developed Rapid Insights research - with a view to implementing recommendations where opportunities exist across the system.

As a partnership, we are now starting to shape the development of priorities for the coming year utilising the expertise and experience of our wider health and care partners to meet these challenges in the months and years ahead.

## **2.8 Sheffield Olympic Legacy Park**

Proposals for the Sheffield Olympic Legacy Park (SOLP) were unveiled in January. The project, which involves and is supported by SYB partners, is set to yield significant economic and health benefits within SYB and across the UK.

It joins up a number of prestigious commercial (IBM and Canon Medical Systems Europe) and regional public sector partners on the 35-acre site benefiting from the cluster of specialised health and care, academia, clinical research and sports engineering centres.

Situated in the east of Sheffield, newly unveiled plans over the next five years are set to see a further 5,600 high value jobs created whilst generating over £2bn in Gross Value Added (GVA) benefits to support a post-pandemic and post-Brexit UK economy.

This development site is already home to a number of established research and development hubs including the English Institute of Sport Sheffield (EISS), Advanced Wellbeing Research Centre (AWRC) and National Centre of Excellence for Food Engineering (NCEFE), alongside the Oasis Academy Don Valley and the FlyDSA Arena, ensuring that it provides excellent transport links to the M1, tramway inter-connectivity to Sheffield and Rotherham but also with the possibility of greener links via the Sheffield & Tinsley Canal.

Perhaps one of the standout facilities on the Park will be development of the new national Centre for Child Health Technology (CCHT), thought to be the first of its kind globally, tasked with focusing on addressing issues that affect children and young people – with the added benefit of delivering over £200m in savings to the NHS in the next ten years.

In addition, Canon Medical Systems Europe will also host a world-leading diagnostic imaging lab and research centre, delivering ultramodern digital research and development capabilities to support the enhancement of diagnostics in the NHS.

I would like to acknowledge SYB partners Sheffield City Council, Sheffield Teaching Hospitals NHS Foundation Trust, Sheffield Hallam University, Sheffield City Trust, Sheffield Children's NHS Foundation Trust and Yorkshire & Humber Academic Health Sciences Network for their exceptional work in supporting this key transformational project.

## **2.9 Anchor Networks**

The impact the NHS has on people's health extends beyond the role as a provider of treatment and care. As large employers, buyers, and capital asset holders, our health care organisations are well positioned to use their spending power and resources to address social, economic and environmental factors that widen inequalities and contribute to poor health.

Anchor institutions are key to making a strategic contribution to the health and wellbeing of the local population and the local economy and include the NHS, along with local authorities, universities and other non-profit organisations. An Anchor Network goes one step further to bring the institutions together and early discussions are now taking place with the national team on what this means for SYB. A proposal is being developed with the four North ICSs taking a collective approach which will be informed by a system-wide event.

## **3. Finance update**

At Month 9 the system is reporting a forecast surplus of £36.1m compared with a plan deficit of £3.9m. This is a significant improvement on the Month 8 forecast and reflects a reassessment of the forecast position at Month 9 and the continued impact of under-performance on elective activity and reduced cost pressures on CCG budgets.

Capital slippage has increase in Month 9 to a forecast £21.6m on planned spend of £163m or 13.2%. The slippage is due to the challenges of delivering a capital programme during the

pandemic, significant additional capital allocations for COVID-19 and critical infrastructure and the revisiting of a material business case. The slippage has been offset by a forecast unplanned charge of £9.5m for the Rotherham Carbon Energy scheme.

Because of the ongoing impact of the pandemic the financial framework that is in place for the second half of 20/21 will be rolled forward into at least the first quarter of 21/22. Further details are awaited.
